

ADELINE PALMERSTON

DATA ANALYST

PROFILE

Detail-oriented and analytical Data Analyst with a strong ability to collect, process, analyze, and interpret complex datasets to support strategic business decisions. Experienced in transforming raw data into actionable insights through data visualization, statistical analysis, and reporting. Proficient in SQL, Excel, Python, Power BI, and Tableau, with a solid understanding of data modeling, business intelligence, and performance metrics. Adept at identifying trends, solving problems, and communicating findings to both technical and non-technical stakeholders. Committed to leveraging data-driven solutions to improve operational efficiency and business performance.

WORK EXPERIENCE

Salford Analytics Solutions | January 2023 – Present

- Designed marketing materials including brochures, flyers, posters, banners, and digital advertisements.
- Created engaging social media content that increased audience engagement and brand awareness.
- Collaborated with marketing teams to develop creative campaigns aligned with business objectives.
- Produced visual assets for websites, presentations, and email marketing campaigns.
- Maintained brand consistency across all design projects and communication channels.

EDUCATION

Bachelor of Science in Data Science

University Ginyard International | 2018 – 2022
